NOTES ON SOME OF THE MORE IMPORTANT FIGURES PRESENTED IN THIS VOLUME.

The custom of printing in the complete bound volume of the Statistical Register an abstract of particulars published in each Part is again followed with this issue. From the records contained herein it will be seen that distinct progress has characterised the greater part of the operations of the State since the advent of peace, especially with regard to the latest figures published.

I gratefully acknowledge the assistance of all Government Officers and others who have kindly supplied figures for the respective branches or business concerns under their supervision.

S. BENNETT,
Government Statistician.

Government Statistician's Office,
Perth, Western Australia,
23rd January, 1926.

PART I.—POPULATION AND VITAL STATISTICS, 1924.

The population of the State on the 31st December, 1923 was 353,815, comprising 189,429 males and 164,386 females; the gain for the year 1924 was 5,912 males and 4,397 females, totalling 10,309 persons. The increase was due to the excess of births over deaths of 2,176 males and 2,862 females, or a total of 5,038, and of arrivals over departures respectively of 3,736, 1,535 and 5,271, which brought the population for the year ended 31st December, 1924, up to 195,341 males and 168,783 females, or a total of 364,124.

The arrivals during the year amounted to 22,217 males and 12,978 females, made up by Interstate arrivals by sea 3,938 males and 3,752 females. Railway numbered 9,891 males and 4,840 females, and oversea arrivals 8,389 males and 4,386 females.

The departures numbered 18,481 males and 11,443 females. The emigration by sea was 2,325 males and 1,440 females, and by railway 10,478 males and 5,225 females. The allowance made for unrecorded departures being 603 males and 325 females.

Births for the year numbered 4,215 males and 4,086 females (exclusive of still born), a gain of 201 males and 246 females over the previous year's figures, the birth rate being 23.1 as against that of 22.6 for 1923.

The illegitimate births for 1924 were 327, an increase of 41 on 1923, whilst stillborn children numbered 251. The legitimations for the year under review were 55.

The deaths registered were those of 2,039 males and 1,224 females, or a total of 3,263, the death rate being 9.1 as against 8.4 for 1923.

The infantile death rate of 49.9 for the year must be considered very satisfactory, being the lowest on record in this State, and shows a decline of 6.3 on the previous year.

The principal causes of death for the year under review are as follows:—Diseases of circulatory system 380, cancer 327, senility 258, phthisis 228, other tubercular diseases 31, pneumonia and broncho-pneumonia 256, early infancy 172, diarrhoea and enteritis 147, cerebral haemorrhage and apoplexy 121, influenza 44; typhoid fever 22, and diphtheria 14.

The marriages for 1924 numbered 2,596, an increase upon the 1923 figures of 220, the rates being 7.2 and 6.8 respectively.

Naturalisations taken out were 176, the principal ones being those of 67 Italians, 28 Jugo-Slavs, 17 Greeks, and 16 Germans.

The population for the metropolitan area has been estimated to be, at the 31st December, 1924, 176,467, viz., 87,524 males and 88,943 females an increase from the previous year of 4,608 persons.

PART II.—PUBLIC FINANCE, 1924-25.

This part gives in condensed form the figures relative to Public Debt, Loan Expenditure, Consolidated Revenue and Expenditure, Government Property Sale Fund and Taxation.

The Public Debt on 30th June, 1925, amounted to £64,493,261, and the average nominal interest payable thereon to £4.49 per cent. The accrued Sinking Fund on 31st March, 1925, totalled £9,985,031, which realised an average rate of interest of £3.83 per cent. A sum of £4,099,021 was expended from Loans during the year, which brought the total Loan expenditure to the end of the year up to £56,895,032. The Consolidated Revenue for the year was £8,381,446, and the expenditure therefrom £8,439,844. In the year 1923-24 the total income taxable was £17,634,590, and the taxation imposed amounted to £383,488 or £10 5s. 4d. per taxpayer.

PART III.—ACCUMULATION, 1924-25.

This part deals with Banking, Life and General Insurance, Friendly Societies, Building and Co-operative Societies, and Industrial and Trade Unions.

Cheque-paying Banks.—There are 11 such banks operating in this State with 200 branches, including head offices. No variations occurred with the previous year in the rates of exchange on drafts and bills drawn during the year on the other Commonwealth States; New Zealand, however, showed slight differences, but those drawn on London and 60 days sight on London reveal considerable difference. The maximum rates of discount on bills, interest on overdrafts, and interest on fixed deposits did not vary from those of the previous year with the exception of discount on bills for three months, which increased by ½ per cent. Their liabilities on 31st December, 1924, amounted to £13,564,477, of which £13,122,352 was due to depositors, and the assets to £17,101,252.

Savings Banks.—On 30th June, 1925, the sum due to 159,608 depositors in the State Savings Bank was £5,893,202 or £36.923 per account; in the School Penny Savings Bank to 45,354 depositors £78,085, or £1.722 per account; and in the Local Commonwealth Savings Bank to 72,739 depositors £2,332,647, or £32.069 per account. Therefore the total amount due to depositors in all Savings Banks in the State amounted to £8,303,934 on the above date.

The assets of the State Savings Bank on 30th June, 1925, totalled £6,029,143, which included £5,971,287 due to depositors, and the sum invested amounted to £5,459,049.

Life Assurance.—There were 15 companies doing business in this State during 1924, or one more than the previous year, the additional company being the Commonwealth Life Assurance Society. Their assets in the State amounted to £5,557,662. New ordinary business was transacted locally, during the year, to the extent of 5,778 assurance policies for £2,261,246 with single and annual premiums amounting to £73,776; 714 endowment policies for £181,265 with single and annual premiums amounting to £8,545 and two annuities for £73 per annum, whilst the increases for existing policies over the previous year were as follows:—Assurance, 1,327 policies for £869,014; Annuities, one policy for £4. Endowments, however, show a fall of 223 policies but an increase in sum assured of £14,088.

Six of the companies were also doing industrial business in the State during the year, and the new policies issued locally by them were, for assurances, 15,396 for £744,361, with annual premiums amounting to £47,159, and endowments 2,342 for £154,704, with annual premiums amounting to £9,306. This industrial business also discloses increases over the previous year in assurances of 4,664 policies for £258,149 and endowments of 921 policies for £67,966.

General Insurance.—The total revenue of companies who transacted business in this State during the year 1924 (£777,205) reveals an increase on the previous year of £145,998, and the expenditure (£590,117) an increase of £97,742. £271,565 was paid in losses as compared with £217,530 in 1923. A new table has been added to the part showing in detail, for 1917 and the last five years, each class of insurance.

Friendly, Building, Co-operative, and Provident Societies.—The financial year of these societies has been altered to the 30th June, 1925, and the figures given represent a period of 18 months. There were 15 friendly societies in existence on the above date with 324 branches and 21,350 benefit members, of which 4,673 received sick pay during the year. The revenue amounted to £177,694 and the expenditure to £150,839, of which £62,596 was paid out for sickness, medical attendance and medicine. The funds at the end of the year amounted to £378,753, of which £370,307 was invested. There were in addition 23 specially authorised societies, whose revenue amounted to £21,757 and expenditure to £22,097. The funds at the end of the year totalled £15,963, of which £15,916 was invested. On the above date there were 15 building societies with a membership of 8,139. Deposits received amounted to £159,710, and loans were granted to the extent of £148,347, whilst repayments of £93,922 were made. Of the assets (£439,284) £423,110 consisted of mortgages. Twelve co-operative and provident societies were also doing business. Members

numbered 2,829, and the total sales during the period amounted to £163,752. The assets were £60,433, of which £35,048 was invested in mortgages and landed and house property.

Industrial and Trade Unions.—These numbered 175 on the 31st December, 1924, with 41,721 members. The total income during the year was £79,414 and expenditure £75,062.

PART IV.—INTERCHANGE, 1924—TRADE AND TRANSPORT STATISTICS.

This part deals principally with trade, customs, and excise revenue, transport, and postal operations for the year ended 30th June, 1924. Imports are divided into 1,448 items, and Table 5, "General Imports," shows each item according to countries of origin. Exports are divided into 504 items. Table 6, "General Exports," shows the amount of Australian and oversea origin of each item according to countries of destination.

The total value of the imports shows an increase of £566,466, as compared with the previous year, while the percentage of goods of British origin was 80 per cent. of the total amount.

Some of the principal items imported during 1923-24 were:—Butter £509,899, sugar £568,649, tea £268,464, tobacco (manufactured) £333,332, cigarettes £214,845, jute goods £403,836, rubber goods £218,506, oils £533,403, apparel and soft goods £2,203,184, agricultural implements and machinery £454,558, vehicles (all kinds) £859,092, other machines and machinery £775,204, manufactures of metals £816,547, fertilisers £177,958, and drugs, chemicals, and medicines £261,642.

The following figures show the variations of the past three years and also the transactions of ten years ago:—

Transport.

Tables dealing with transport have been regrouped and amplified in order to show separately the operations of Government and private railways—(1) open for general and passenger traffic, (2) run in connection with specific industries. The operation of private ferries is shown for the first time, and tramways are grouped according to controlling authority, *i.e.*, "Government," "municipal," "private," and where necessary according to motive power.

Other tables in this part deal with shipping, the Fremantle Harbour Trust, the Bunbury Harbour Board, Shipping office returns, State sawmills, postal and telegraph statistics, also the number of wireless licenses issued during the year 1923-1924.

Part V.—Land Settlement, Agriculture, Live Stock, and Meteorological Statistics, 1924-25.

Land Settlement.—On the 30th June, 1925, the total area alienated, or in process of alienation, totalled 28,901,792 acres, while there were 228,919,930 held under pastoral lease and 4,072,017 acres under other kinds of lease, leaving a balance of 362,695,061 acres still available for occupation. The total area absolutely alienated during the year 1924-25 amounted to 458,168 acres, and that conditionally alienated to 1,568,268 acres. Of the 447,322 acres purchased under the Agricultural Lands Purchase Act, 375,888 acres have been selected, whilst from 258,531 acres purchased for soldier settlement 255,014 acres were occupied on the 30th June, 1925. The

number of holdings of alienated lands and lands in process of alienation from which statistical returns were collected number 18,625, and the area over which they were collected amounted to 20,486,179 acres, and for Crown lands held under lease or license the number was 830, covering an area of 185,215,728 acres. The above holdings had under crop 2,710,856 acres; artificially sown grasses, 60,257 acres; prepared land for next season, 410,599 acres; fallow, 1,353,522 acres; previously cropped, now used for grazing or lying idle, 2,215,500 acres; and ring-barked or partially cleared land, 2,349,199 acres, whilst the estimated value thereon, of buildings for sheltering stock, produce, and machinery was £2,185,925, and plant and machinery £4,677,068.

Agriculture.—This industry showed great progress during the season 1924-25. The value of production of all crops amounted to £11,179,509, or an increase on the previous season of £3,644,315. Of the total value wheat represents £7,265,750 and hay £1,972,286. The acreage under crop (2,710,856 acres) advanced by 387,786 acres on the previous season, and the production of wheat 23,887,397 bushels increased by 4,967,126 bushels, the yield for the season being a record for the State. The duction of oats (4,241,074 bushels), also a record, was greater than the previous year by 1,394,404 bushels. Barley, hay, potato, etc., crops also gave increased yields.

The acreage under orchards again reveals a slight decrease, whilse the acreage under vineyards is still advancing, the former now being 18,525 acres and the latter 5,331 acres. The production of citrus fruits show a decline on the previous year, but apples and pears show considerable increases, the former by 139,634 bushels and the latter by 26,640 bushels. Stone fruits, with the exception of plums, which are slightly in excess of the previous season, all reveal decreases. The production of grapes also showed a falling off under all headings on the previous season, consesuently this reflected on the quantities of wine and dried fruits produced from the crops. The production of wine (223,761 gallons) being 9,435 gallons less, and raisins, sultanas and currants combined (20,627 cwt.) 4,748 cwt. less.

The quantity of seed wheat used during 1924 amounted to 2,078,804 bushels, or one bushel per acre. Natural manure was used to the extent of 60,290 loads, or an average of 8.2 loads per acre, and artificial manure 2,212,522, or 0.8 cwt. per acre.

The area of land irrigated during the season was 3,126 acres, the principal crops treated being lucerne, maize, green feed, orchards and vegetables. The dairy, poultry, and bee-farming industries vary very slightly from those of the previous year. Persons permanently employed in "farming," "dairying," "orchards, "vineyards and market gardens," and "pastoral" pursuits numbered 24,093, 2,225, 3,263, and 6,650 respectively. Of these 493 were Asiatics and 3,312 aborigines.

The value of certain products imported into this State during 1924-25, which could be produced from the soil here, amounted to £3,328,606, or an increase on the past year of £424,409.

The value of improvements effected to 30th June, 1925, in respect of money advanced under the Agricultural Bank Act, was £4,882,293, and the amount advanced to assisted settlers by the Industries Assistance Board to 31st March, 1925, £9,459,001. of which £7,548,031 has been repaid.

Live stock on 31st December, 1924.—All classes of live stock with the exception of pigs and mules, showed decreases on the previous year's figures. This is mostly attributable to the drought conditions prevailing during 1923 and 1924 in the North and North-Western and Central portions of the State. In the South-Western portion, however, although cattle reveal a falling off of 9,069 head, sheep and pigs have increased by 356,459 and 5,223 head respectively. The loss of live stock during the year was greatly in excess of 1923, the total in losses reported for horses being 13,123; cattle 137,414; sheep 887,446; pigs 3,520, and camels 377 head. Lambs dropped during the year (1,525,003) show a decrease of 86,227 on the 1923 figures. Calves dropped (160,018) a decrease of 46,102, and foals (10,818) a decrease of 2,574. The cattle slaughtered for consumption numbered 95,377, sheep 586,077, and pigs 64,212. On the previous year's figures cattle slaughtered increased by 4,798, and pigs by 2,879, whilst sheep decreased by 223,272 head.

Meteorological Statistics, 1924.

Taking the year as a whole, continued drought was the outstanding feature regarding the chief pastoral regions of the State—the Tropics, East Gascoyne, and Murchison. In the West Kimberley the summer season 1923-24 was by far the worst on record, and the East Kimberley was saved from inclusion in this statement only by the rains of December, 1923. The present season (1924-25) has, as we have seen, opened equally unfavourably. The percentage of actual fall to the average was under 20 per cent. at Derby (22.13 inches in defect) and slightly over 60 per cent. at Wyndham (9.69 inches in defect).

The North-West districts (Fortescue and DeGrey), and the East Gascoyne and Murchison regions, did not receive a single substantial general rainfall throughout the year. Isolated thunder showers supplied the bulk of the registrations in the North-West, where Whim Creek only measured 0.17 inches, and five other stations less than an inch for the whole year, while the maximum fall was only 3.67 inches (Bamboo Creek). Of the eighteen stations represented on the Telegraphic Rain Map in the Tropics, twelve experienced the driest year on record—some reducing by many inches the previous record. Derby, for example, had only 4.39 inches compared with 13.43 inches in 1911, and an average of 26.52 inches, and Marble Bar 2.76 compared with 7.09 in 1922, and an average of 12.77 inches. In the East Gascoyne and Murchison the totals varied between 20 per cent. of the average, but, falling in the form of light and infrequent showers, the value of rain was even less than that apparently indicated by its actual amount. The West Gascoyne fared rather better, inasmuch as one or two good rains occurred, but the totals also showed heavy defects. The same remark applies to the Coolgardie Goldfields, except that good falls were more in evidence, especially in the Southern portions. The Yilgarn area, which experienced a fairly successful wheat year, was influenced mainly by extensions of the rainfall of the agricultural region. In this part of the State defects were also the rule, but a large area, extending from Mandurah to the Leeuwin and inland to Bridgetown and Pingelly (exclusive, however, of a coastal strip between Bunbury and Cape Naturaliste), and two or three minor areas, showed excesses of variable amounts, ranging up to 6.76 inches at Cape Leeuwin. The whole of the wheat belt proper, therefore, received less than normal rainfall, the shortage varying from half-an-inch to three inches, and, here and there, larger amounts (5.59 inches at Berkshire Valley).

The year's rainfall in agricultural areas fell into four main divisions. The first was the dry period of the earlier months (January-April), when water supplies were very short, although relieved partially in Northern and Eastern areas in late March. With May the second phase commenced, and lasted until the end of August. Each of these four months received, roughly, equal amounts of rainfall, in distinction to the normal distribution, which shows a rapid increase towards midwinter, and a subsequent decline. The rainfall was consequently deficient, but sufficient to maintain crop growth, which was further favoured by the frequency of sunny days, while night frosts in the fine intervals served to check pests and disease. At the end of August the crops promised most favourably, when the advent of the third phase—the dry September—for the time being entirely changed the outlook. However, the dry conditions did not last long enough, nor were sufficiently severe to defy recovery, which was completely effected in the final rainfall phase of the year; the six weeks of good rains in October and early November left the crops in an even more favourable position than at the end of August. The year concluded with a fine ripening period, devoid (apart from a few strictly limited Midland localities) of hail or damaging rains.

PART VI.—INDUSTRIAL ESTABLISHMENTS, 1924 (EXCLUSIVE OF MINES).

The results of the secondary industries of the State for the year 1924 again reveal a decided advance on those of the former year, although the number of establishments (1,293) has declined by fourteen. This falling off was mostly attributable to clothing and textile factories (Class XII.) and supplementary factories (Class XX.). However, the number of persons employed (22,808) shows a gain of 1,969, and the amount of salaries and wages disbursed (£4,336,744) was £471,420 more. The total value of output for the year amounted to £15,726,473, and the value of material used to £8,361,951—these figures also are in excess of the previous year by £2,022,163 and £1,180,353 respectively.

The total values of land and buildings (£4,838,182) and plant and machinery (£4,969,417) used in connection with the industries are greater for the former by £305,175 and the latter by £348,833.

Only 92 of the establishments employed over 50 hands, whilst 874 each employed 10 or less. On the 30th November, 1924, 539 persons of foreign nationality were employed in factories, including 47 coloured races. The outputs from some of the principal establishments for the past two years were as follows:—

Statistical tables relative to guano raised, pearl and pearl-shell fisheries, general fisheries, and rates of wages paid complete this part. In the first mentioned industry none was raised during 1924. The fishing industries do not reveal any marked differences from the previous year, except in the value of pearl-shell, which shows an increase of £58,281. The rates of wages have been brought up to the 30th June, 1925.

PART VII.—MINERAL STATISTICS AND WATER CONSERVATION, 1924-25.

This publication deals with the mineral statistics for the year ended 31st December, 1924, and water conservation for the year ended 30th June, 1925.

The quantity of raw gold exported, plus that received at the Royal Mint, during the year 1924 was 485,035 fine ounces, valued at £2,060,298 or, if the average value of the Gold Producers' Association be taken, £2,255,927, making a total production in the State to 31st December, 1924, of 35,829,914 fine ounces, valued at £154,785,405 (Gold Producers' Association valuation). The production of gold during 1924 was 19,476 ounces less than during 1923. Dividends amounting to £124,771 were distributed during the year, making the total amount similarly disbursed from the year 1890 to 31st December, 1924, £28,505,477. There were 89,146 fine ounces of silver, valued at £13,409, produced during 1924, or 19,859 ounces less than in 1923. The total production of silver to the end of 1924 in the State amounted to 4,322,394 fine ounces, valued at £599,684.

The quantity of coal reported as having been produced during 1924 was 421,864 tons, valued at £363,255, which was slightly more in quantity but less in value than during 1923.

The total value of other minerals produced in the State at the end of the year 1924 was as follows:—Copper, £1,786,798; lead, silver-lead, ore and concentrates, £786,480; pig lead, £628,956; and tin, £1,522,074.

The number of gold mining leases in force on 31st December, 1924, was 560, and the average number of men employed thereon 5,296.

Batteries, including those of the Government with 1,343 head of stampers, besides other crushing mills, treated 783,760 tons of gold ore.

The value of the machinery used in the production of gold was estimated at £1,409,399. In addition, there were 42 other crushing mills with machinery valued at £355,731, and 993 men engaged in mining for minerals other than gold.

The mining accidents during 1924 were 10 killed and 231 injured, which were considerably fewer than in any of the previous five years.

The number of sovereigns produced at the Royal Mint during the year ended 30th June, 1925, was 1,685,092, and the total since its establishment in the State, 96,699,218.

The statistics of water conservation disclose that the consumption of water during the year ended 30th June, 1925, in regard to the Goldfields supply, was 1,139,000 thousands of gallons, yielding a revenue of £166,449, whilst in the metropolitan area, including Armadale, 2,909,095 thousands of gallons were supplied to an estimated population of 178,600 residents. The number of houses connected with this service was 40,741. The Mundaring reservoir furnished 297,416 thousands of gallons in this connection. The revenue from the Metropolittan Water Scheme amounted to £140,811 in 1924-25, whilst the total expenditure was £169,011 for the same period.

The consumption of water in country and other Goldfields towns, having separate water supply schemes under the control of the Public Works Department is also given, as also information relative to both deep and artesian boring operations, tank and well sinking, whilst statements relating to water supplies controlled by the Government railways and water boards with the consumption of water, and in the latter case, the estimated population served, conclude this part of the Statistical Register.

PART VIII.—LAW, CRIME, ETC., 1924-25.

This part of the annual Statistical Register contains figures of the transactions of the Land Titles and Deeds Office up to the 30th June last, of Supreme Court business to 31st December, 1924; to the latter date, also, figures relative to cases brought before Magistrates' Courts, besides the general business of Local Courts, Licensing Courts, and Coroners' Courts; and finally an abstract of the latest Gaol and Prisoners' statistics.

Compared with the previous year's return, the figures relative to the transactions of the Land Titles Office were similar generally. Variations were principally those in the numbers of transfers registered, which declined from 10,662 to 9,940, a decrease of 722; the consideration expressed also receded from £5,698,265 to £4,917,120.

Decreases are noticeable in the number of mortgages registered, which declined from 9,788 to 9,337, and in the amount of money thereby secured from £5,452,041 to £4,856,748. The amount standing to the credit of the assurance fund had increased from £9,009 to £9,228. The data of the revenue reveals a decrease in fees collected, the total receipts falling from £28,709 to £27,542, which, with an increase in the expenditure from £15,137 to £15,772, resulted in a decrease in the net revenue of £1,802 on that of the previous year. The total net revenue for 1924-25 was £11,770.

In the Supreme Court transactions, actions under common law increased, the number and amount involved during 1924 being 669 and £78,466 respectively. There were 272 judgments signed and entered, and the total amount for these was £37,495. An increase was recorded in the number and in the value of sworn estates in probates, from 607 to 615 and £1,317,151 to £1,770,901 respectively. In Letters of Administration, whilst the number increased from 300 to 334, the sworn value of the estates declined from £280,820 to £182,375. There were 44 petitions in bankruptcy, 31 voluntary and 13 compulsory, and the total assets were £23,388 and liabilities £36,488. Transactions under bills of sale and liens increased; the registrations for the year 1924 numbered 6,990, representing £4,860,251, and the satisfactions entered were 353 in number and £930,281 in amount. In Divorce there were 135 petitions for dissolution of marriage, 99 decrees nisi and 48 decrees absolute granted during the year. Companies registered numbered 98, with capitals amounting to £2,062,440 against 94 with capitals amounting to £1,627,000 in 1923. 303 intestate estates were reported and £27,065 was collected thereon.

The Crime figures show an increase on the previous year's return of 398 in the number of distinct persons brought before the courts, the total for 1924 was 8,953. For the 10,679 offences charged against these persons (exclusive of aborigines) 9,598 convictions (9,534 in the lower and 64 in the higher courts) were recorded, of which, excluding drunkenness itself, 1,082 were attributable to drink. There were 497 more cases and 549 more convictions (exclusive of aborigines) in the Magistrates' Courts than in the year 1923. The proportion of numbers of offences to the classes of offences remained consistent in the main with that of the year before, the chief departures being an increase in the number of offences against good order. Drunkenness increased by 127 cases and 132 convictions. The totals for the class of offences against good order was 6,792 cases and 6,457 convictions. In the class of offences against public welfare there was an increase of 214 cases and 206 convictions. The totals for this class comprised 2,414 cases and 1,966 convictions. The data of the repeated conviction of individual offenders in the lower courts during the year 1924 show that of the 7,735 persons, 6,650 were convicted but once, 756 twice, 176 three times, 75 four times, 26 five times, 20 six times, and the remaining 32 comprised those whose convictions varied from seven to more than twelve times. The total convictions (excluding neglected children and lunacy cases) in all courts numbered 9,767 or 2.72 per cent. of the mean population, as against 2.66 of

the previous year. Corresponding figures for the year 1916 showed 13,944 convictions or 4.45 per cent. of the mean population. The premptory commitments to prison were 614 in the lower and 51 in the higher courts, whilst also 71 aborigines from the lower and 10 from the higher courts were committed to prison. The percentage of all commitments to all convictions was 7.64 against 9.64 in 1922. The total of juveniles (under 18 years) convicted was 752, of whom 18 were females. The principal convictions were 181 for stealing, including breaking and entering, 246 for breaches of local government by-laws, and 240 for offences against the public welfare. The number of destitute and neglected children dealt with by the Children's Courts during 1924 was 102.

In the Local Court cases an increase in the number of plaints and amount recovered is noticeable, the number recorded was 18,705, and the amount recovered £91,100.

Liquor licenses granted during 1924 numbered 2,131, which was 24 less than in 1923. There was a decrease of 36 in the number of publicans' general licenses.

The gaols and prisoners' statistics for 1924 show that, whilst the separate commitments and distinct prisoners increased by 252 in number, the daily average in prison (252.72) varied but slightly from that of 1923. The annual cost of prisons and prisoners (£23,369) was a slight increase on that of the previous year. The earnings of prisoners decreased a little, the amount earned being £11,519 during the year under review.

Part IX.—Hospitals, Charitable Institutions, Etc., 1924-25.

During the year under review there has been an increase of six in the number of hospitals carried on by the State, five new ones being brought into operation, and one, previously an assisted hospital, now carried on as a Government hospital. There has also been an increase of seven assisted hospitals, making a total of 27 Government and 37 assisted hospitals, situated in various parts of the State.

During the year there were 6,853 patients received into the Government hospitals for treatment, 404 remained from the previous year, thus showing a total of 7,257 persons admitted for treatment. Of this number 4,437 were discharged as cured, 1,877 as relieved, 99 unrelieved, 402 died, and 442 remained for further treatment.

The patients admitted to the assisted hospitals during the same period numbered 10,640 persons, 6,089 were discharged as cured, 3,364 as relieved, 279 unrelieved, deaths claimed 807, while 656 were remaining for further treatment.

The average daily numbers resident in the Government and assisted hospitals were 466.8 and 650.4, with an average residence of 23.5 and 21.2 days respectively.

The table below shows the principal causes of ailment requiring medical attention in these institutions:—

The number of patients in the hospitals for insane for the year ended 31st December, 1924, was 1,044 as against 1,066 for the previous year, a decrease of 22, whilst the deaths numbered 63 or two less than in 1923.

There was an increase in the number of inmates in the homes for the destitute of 24, the totals being 687.

The children in orphanages and industrial schools for 1924 was 990, showing an increase over the 1923 figures of 32.

Aborigines and half-caste aborigines in the various native missions and institutions was 1,025, or eight more than in 1923.

The number of State supported children on the 30th June, 1924, was 746 as against 772 for the previous year.

A statement showing the receipts and expenditure of various charitable institutions carried on apart from the Government control, for the years 1920-21 to 1924-25, is also included in this part.

Part X.—EDUCATION, SCIENCE, AND ART, 1924-25.

The information contained in this Part includes financial figures relative to expenditure on Education, Public Library, Museum, and various Societies and Boards to 30th June, 1925, and other information for the most part to earlier dates.

The expenditure on education for the year from consolidated revenue (£594,853), including salaries (£522,457), was slightly in excess of that of the previous year. Subsidies and grants to the University amounted to £18,500 and to experiment farms £9,913, on which latter was spent £3,585 more than during the year before. Scientific and literary funds received less amounts, varying but little from those of the previous year. The total expenditure for the year on education, science, and art amounted to £647,321.

The receipts from education totalled £18,924, which was an increase of £670 on that of the previous year. The principal item was £7,819 received for rents.

During 1924-25 the average enrolment of scholars in Government (primary) schools was 51,726, and the average attendance 45,644. The cost per head calculated on such attendance, including administration, was £10 8s. 7½d. as against £10 5s. 1¾d. of the year before. At the end of the year 1924 the total enrolment was 51,120, whilst that of the Government secondary schools was 1,005, and of the private schools 11,336. The total children receiving education at the end of the year 1924 was thus 63,461, or 370 more than at the end of 1923.

The teaching staff in the Government primary schools numbered 1,865, 68 in the secondary, 508 in the private schools, and in manual training 37, making a total of 2,478 employed in the teaching of the 63,461 scholars, or an average of one teacher to every 26 scholars.

There were 82 competitors for Government Exhibitions, 11 of whom were successful. In the Secondary School Scholarships for children of fallen or disabled soldiers 574 competed, of whom 58 were successful.

In the Continuation Classes there was a decrease in the average number of individual students, the total, 2,668, being 155 less than in the previous year.

In the Technical Schools the total average number of individual students, 3,423, was similar to that of the previous 12 months, but the fees received, £2,837, were £148 less.

The data relative to manual training, household management, and business colleges show slight increases, and the number of children in orphanages and industrial schools, a slight decrease when compared with the year before.

At the University eight scholarships were awarded. The receipts amounted to £22,541, and the expenditure £23,568, or £1,027 in excess of the receipts. At the public examination at the University 751 school certificates were obtained, whilst 462 passed in the practice and 436 in the theory of music.

The number of visitors to the Public Library during the year ended 30th June, 1925, was 182,716, or 39,633 more than during the preceding 12 months. Books in the library numbered 121,845, of an estimated value of £52,000. 67,341 persons visited the Museum during the year. The specimens number 101,000, of an estimated value of £81,750.

Financial and other data relative to Societies, Boards, etc., Royal Life Saving Society, School of Mines, and public and other libraries are also given in the Part.

Part XI.—LOCAL GOVERNMENT, 1924.

Municipalities.

For the year ended 31st October, 1924, the number (21) is the same as for the previous year, and within their boundaries there were 35,497 dwelling-houses. The population numbered 84,558 males and 87,869 females, or a total of 172,427 persons.

The capital value of rateable property, including improvements, amounted to £32,881,961, the net annual value to £1,910,798, and the amount payable in respect of rates to £286,208. These figures reveal increases on the previous year of £1,827,930, £100,625, and £517 respectively.

The total revenue was £1,030,275, and the expenditure £1,027,620. Included in the former were amounts received for rates £287,863 and loans raised during the year £192,350, and in the latter £236,050 for works and improvements to roads, streets, etc., and £191,528 for interest, sinking funds, etc., on loans. The amount of loans current totalled £1,864,993, or £62,212 in excess of the previous year, whilst the accrued sinking funds for the redemption of loans amounted to £381,273.

The total length of macadamised, formed, cleared, and not cleared roads and streets totalled 993 miles 46 chains, while the length of footpaths was 772 miles 51 chains.

Each of the municipal authorities is also constituted as a Health Board. The total revenue of all such boards amounted to £94,237, which includes health and sanitary rates, and sanitary charges and rubbish fees, of a total of £88,079, whilst the expenditure was £94,966, and included £65,997 for expenditure on sanitary and rubbish services.

District Road Boards.

These numbered 122 on the 30th June, 1924, or one more than the previous year, and had a population of 188,640 persons, consisting of 106,490 males and 82,150 females. The dwelling-houses numbered 45,540.

The Boards' rate on both the annual and unimproved values and the amounts upon which rates were struck were, for the former, £321,125, and for the latter, £17,310,105.

The total revenue amounted to £434,775, which included rates, £213,848; government grants, £74,184; and loans raised during the year, £36,501, whilst the total expenditure was £445,851, and included £288,014 for construction and maintenance works, and £21,633 for interest, sinking funds, etc., on loans.

The loans current totalled £242,043, or £31,288 greater than the previous year, and sinking funds for the redemption of loans amounted to £29,084.

The total length of roads cleared, formed and metalled, or otherwise constructed totalled 39,886 miles 58 chains, whilst the Boards had under their control 1,008 bridges, 9,719 culverts, and 1,769 constructed fords.

In addition to the above, 76 of the Boards constituted Local Boards of Health for their districts, the revenue of which amounted to £34,626 and the expenditure therefrom to £33,376. Included in the former was £30,977 for health rates and sanitary charges and rubbish fees, and in the latter £20,958 for sanitary and rubbish services.

Other activities of Local Governing Bodies were extra Health Boards numbering 25, with a revenue of £8,184 and expenditure of £7,757, and 41 Fire Brigades, for which the revenue was £38,720 and the expenditure £38,621. The calls attended numbered, for actual fires, 227; chimney and grass fires, 518; and false alarms, 108.

Part XII.—MISCELLANEOUS, 1924-25.

The first subject dealt with in this publication is that of Parliamentary Rolls and Elections, giving the latest figures available for the State Government and of the Commonwealth as far as this State is concerned. It will be noticed that the number of names on the State Rolls (202,212) had increased by 10,840 in the case of the Assembly, and the number on the Council Rolls (57,401) had decreased by 475 from the previously recorded figures on 30th June, 1924. The data of electors on the Comonwealth Rolls disclose an increase, since 30th June, 1924, of 7,922, the total on 30th June, 1925, being 185,335. A summary of the Senate elections and referenda from 1903 to 1922 is given.

Information relative to the Prohibition Poll shows that 41,362 voted for, and 77,113 against prohibition. A detailed statement of the voting in each electoral district is included.

The figures relative to the Workers' Homes Board show that during the past ten years 1,390 applications were approved, and the total cost involved was £303,703.

Newspapers in circulation increased by 12 during the year, numbering 107, of which three were dailies, 57 weeklies, and 29 monthlies.

A statement of the Returned Soldiers' League reveals that there were 98 branches with 4,048 members, the total receipts and disbursements being £945 and £1,150 respectively, for the year 1924-25, whilst for the Soldiers' Institute there were £663 and £966 respectively.

The State Labour Bureau's return discloses that during the year ended 30th June, 1925, applications for work by 10,267 men and 1,493 women were received, and engagements for 6,701 of the former and for 1,863 of the latter, including 1,426 laundress-charwomen day-workers, were found; the total engagements numbering 8,564. The principal engagements for men consisted of labourers 1,588, bushmen 1,770, farm hands 923, lads for farms 474, road formers 371, sawmill hands 301, and handymen 244. For women, in addition to the day workers, the chief ones were 132 generals and 60 cooks. During the last ten years assistance had been given to the extent of £23,609 in fares; 19,021 or 81 per cent. of which had been refunded to date. In addition, 64 Goldfields lads and 75 men and women had been given assistance, amounting to £158, drawn from the funds of the scheme for placing Goldfields lads on farms and the Employers' Rail Trust Fund. The rates of wages for the engagements secured at the Bureau conclude this Part of the Register.

STATISTICAL VIEW OF NINETY-SIX YEARS' PROGRESS IN WESTERN AUSTRALIA, 1829 TO 1924-5.

The subjects dealt with in this publication are more fully given in other parts of the Register.

The publication is, however, very interesting, as showing at a glance the rapid strides the State has made since the rich discovery of gold at Coolgardie in 1892. Amongst some of the most striking features presented therein are the increases shown from the above year to the present time in the following:—

Population from 58,658 to 372,333; Consolidated Revenue from £543,888 to £8,381,446; Land Revenue from £71,869 to £334,109; Land Settlement from 100,801,861 acres to 251,554,332 acres; Area under wheat from 35,061 acres to 2,030,208 acres; Total area under crop from 79,605 acres to 2,710,856 acres; Horses, Cattle, Sheep and Pigs from 44,973, 162,886, 1,685,500, and 24,417 respectively, to 175,116, 891,564, 6,396,564, and 66,375 respectively. Length of Government Railways from 203 miles to 3,733 miles. Imports from £1,391,109 to £16,074,035, and Exports from £882,148 to £14,664,548.

The publication also reveals the fact that whilst there has been a decline in the gold yield the other primary industries, with the exception of the years during the war period, have made steady progress.

TOTAL PRODUCTION.

As no Statement of the Total Production of the State is shown in any part of the Statistica Register, the following table is here appended :—

* The mean population for the year is obtained as follows:—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1924.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1921" (George V., No. 25).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import Items into Classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 6.—EXPORTS of Merchandise from the State of Western Australia during the Year ended 30th June, 1924.

NOTE.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles exported.

TRADE CLASSIFICATION.

Owing to the grouping of the Export Items into classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed Index of the items in alphabetical order.

No. 34.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred. The sinking fund of both Corporations is invested at an approved rate of interest.

NOTE.—In addition to the above figures the following particulars were also obtained:—Acreage of Planted Forest Trees, 1,211 acres; Lands farmed on the "Share System": For Cultivation, 23,405 acres and dairying, 530 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

No. 12.—Acreage and Production of Wheat and Oats in each Statistical District, Sub-District, and Area for the Season ended 28th February, 1925.

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked A, B, C, or D, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*) are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are unoccupied as regards the headings shown. Areas marked (†) are portions of areas only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products. †Corrected from previous issue.

* On 31st December. *a* From the first settlement of the colony up to the year 1837 there were no Blue Books issued, and the figures relating to arrivals and departures, shipping, imports and exports were taken either from the reports of the Harbour Master at Fremantle or from the Perth newspapers of that period. From 1838 to 1859, inclusive, the Blue Books give only the excess of arrivals over departures, or *vice versa*. *b* No records obtainable. *c* At end of year. *d* Departmental figures. *e* On 30th June. *f* Preliminary population and immigration figures. *g* Year ended 30th June.
